Student book pages 20–21

C STAYING SAFE**Reading Strategy Main Idea and Details**

Read *Staying Safe* on page 20 of your student book. Write the main idea in the top box. Write one detail in each box.

Main Idea and Details

- ✓ The main idea of a paragraph is the big idea.
- ✓ Details support the main idea.

| Main Idea: | | | |
|---|--------|--------|--------|
| Detail | Detail | Detail | Detail |
| Avoid injuries by wearing goggles, gloves, and a lab apron. | | | |

D RESPONDING TO ACCIDENTS**Reading Strategy Problem and Solution**

Read the paragraph. Use it to complete the chart.

James, Luisa, and Kim had to study a chemical powder. They poured some of the powder into a glass dish. James coughed while observing the powder. Some of the powder blew out of the dish and onto the table. The students carefully brushed the powder back into the dish. But Luisa was not wearing her gloves. She accidentally touched the powder, so she washed her hands with soap and water. Later, the students were putting the powder on a glass slide. Kim accidentally cut his finger on the slide's sharp corner. His teacher took out the first aid kit. He cleaned and bandaged Kim's cut.

Problem and Solution

- ✓ A problem is a difficult situation.
- ✓ A solution solves the problem.

| Problem | Solution |
|----------------------------------|---|
| The students spilled the powder. | The students brushed the powder back into the dish. |
| Luisa touched the powder. | 1. _____ |
| Kim cut his finger. | 2. _____ |
